

The connection process

THE CONNECTION PROCEDURE CONSISTS OF 4 DIFFERENT STAGES:

(1): The consultant or contractor will act as your agent and will advise you on the best possible solution for your system.

(2): As per the Terms and Conditions, the capacity installed cannot exceed the maximum load allowed at customer's premises. Moreover, DEWA may impose a lower threshold should it be justified by technical limitations related to the integration of your PV system into the power distribution grid.

(3): A number of technical documents need to be submitted to DEWA, such as the site plans, system design plans and details of the proposed equipment, compliance with DEWA regulations.

(4): After successful completion of the plant performance tests for installation with capacity above 100 KW.
