

## Consumer: The Connection Process

(1): The consultant or contractor will act as your agent and will advise you on the best possible solution for your system.

(2) As per the Terms and Conditions, the capacity installed cannot exceed the maximum load allowed at customer's premises. Moreover, DEWA may impose a lower threshold should it be justified by technical limitations related to the integration of your PV system into the power distribution grid.

(3): A number of technical documents need to be submitted to DEWA, such as the site plans, system design plans and details of the proposed equipment, compliance with DEWA regulations.

(4): After successful completion of the plant performance tests for installation with capacity above 100 KW.
